EDUCATION

Higher Education
SSM Lakshmi Ammal Matric Hr. Sec. School
06/2018 - 06/2020   *Score : 67%*

BE Computer Science and Engineering
Bannari Amman Institute of Technology
07/2020 - Present   *CGPA : 9.02*

WORK EXPERIENCE

Junior Software Developer (Intern)
IT Operations (BIT)

09/2022 - Present
The development team works for the institution to develop innovative student portals and other campus-wide initiatives.
Achievements/Tasks

- Script for Automation
- Refracturing Web Application for Requirement
- Dashboard Creation in Grafana

PERSONAL PROJECTS

Nest Pharmaceuticals Dash (Industrial Project) (07/2022 - 11/2022)

- The CRM Web Application manages the sales of medicines throughout India. In detail, marketing representatives will distribute units to their branch stockists, who will then sell the units to pharmacies or hospitals. The entire process is overseen by this application. Detailed trend reports for each branch are displayed in a Grafana dashboard.

System Utilization Analyzer (06/2022 - 07/2022)

- The script, written in Python, is installed on a PC and updates the status by pinging a tunneled database. Multiple visualizations are displayed in a Grafana dashboard, providing a detailed view of the active or inactive status of each PC. <click-here>

Portainer Auto Script (From hub.docker.com) (08/2022 - 09/2022)

- Automation Script that converts whole docker yaml to json. Run for Productions.
